16 SILVER

11 BRONZE

**8 NEW SESA RECORDS
3 AGE CHAMPIONS**

Congratulations to all who participated!

WHAT'S NEW

State-of-the-Art Starting Blocks Have Arrived.

Sapphire Aquatic Centre has recently upgraded its competition equipment with the installation of new Track Start diving blocks, featuring adjustable kick wedges and removable backstroke ledges.

The new blocks provide our students with access to the same modern starting equipment used at many larger aquatic facilities and competition venues across the region and beyond.

By training and competing on contemporary equipment, local swimmers can further develop their starting techniques and gain valuable experience that supports their progression through higher levels of competition.
